Academic Information	
Academic Calendar	<p>The academic calendar is divided into two semesters. A semester lasts six months, however, lectures are only held four to five months out of each semester. The lectures in Fall Semester begin in October and end in January. The Spring semester starts in March and ends in June. A two weeks examination period takes place in early February / July. Current academic calendar: https://www.htwg-konstanz.de/en/academics/international-office/international-students/incoming-exchange-students-from-partner-universities/</p>
Study Options	<p>An overview of all the German taught courses at HTWG is available on our website: https://www.htwg-konstanz.de/en/academics/international-office/international-students/incoming-exchange-students-from-partner-universities</p>
English taught courses	<p>All incoming exchange students are invited to take undergraduate and graduate courses taught in English: https://www.htwg-konstanz.de/en/academics/international-office/international-students/incoming-exchange-students-from-partner-universities/study-options/courses-taught-in-english/</p>
German Language Courses	<p>Students also have the possibility to take German language classes during the semester. These language courses range from beginner, intermediate to more advanced classes. Business German / Technical German courses are offered as well. An overview of the German classes at HTWG can be found here: https://www.htwg-konstanz.de/en/academics/international-office/international-students/incoming-exchange-students-from-partner-universities/study-options/german-language-courses/</p>
Course Load	<p>Exchange students are permitted to gain a maximum of 30 ECTS credits per semester of study; recommended: 20 - 24 ECTS.</p>
ECTS	<p>The European Credit Transfer and Accumulation System (ECTS) is a standard student-centered system across the European Union. It is based on the student workload to achieve the objectives of a</p>

	<p>program, specified in terms of learning outcomes and competences.</p> <p>Student workload in ECTS consists of the time required to complete all planned learning activities such as attending lectures and seminars, independent studies, preparation of projects, examinations etc.. One ECTS-credit represents a student's workload of 30 working hours.</p> <p>The ECTS grading scale ranks students on a statistical basis. Grades are reported on a carefully calibrated and uniform A-F scale, combined with keywords and short qualitative definitions to allow the home institution to convert the ECTS grade to their own system if needed.</p>
Assessment	<p>There is usually no homework assigned during the semester; however, students must be self-disciplined and study throughout the semester to prepare for final exams. The final grade or score received is based primarily on one final exam or project. In addition to courses offered at HTWG, students may also choose to receive credit by working independently on a project.</p>
Grading	<p>The classroom performance of an exchange student at HTWG is documented by a German national grade and its corresponding ECTS grade, in the case of credit transfer.</p>
